SECURITY, STARTUPS & ENGINEERING

Founder - Peak Security

2026 - Present

YC Summer Fellow, Palantir Valley Forge Fellow, AI security automation

San Francisco, CA

- \$40K profit in first month from Peak Security, applying AI-assisted recon, exploit validation, CVSS triage, evidence packaging, and responsible-disclosure workflows for startup and enterprise clients.
- Accepted as YC Summer Fellow with \$20K grant for Peak Security.
- Accepted as Palantir Valley Forge Fellow with \$10K grant for Peak Security.

Security Engineer / Software Engineer - Cerebral Valley

Dec 2025 - Present

Security, full-stack engineering, data analytics, event operations

San Francisco, CA

- ± 10 attendee prediction accuracy across varied events by analyzing application timing, conversion patterns, and historical attendee behavior.
- 6K+ builder profiles enriched for recruiting insights using thousands of research-agent runs, OSINT signals, candidate scoring, sponsor analytics, and forward-deployed event intelligence.
- CVSS 8.5 auth-spoofing and CVSS 7.7 bulk-export flaws fixed; patched sender impersonation, restricted cross-user exports, and hardened event messaging workflows.

White Hat Security Research - responsible disclosure and bug bounty work

June 2025 - Present

- \$50K+ earned in cash bounties and goodwill payments across YC-backed startups, multiple NASDAQ-listed companies, AI infrastructure, enterprise, and public-sector targets.
- Recognized on ycombinator.com/security for responsibly disclosing internal data exposure across development and staging environments.

HACKATHON ECOSYSTEM

Tech Lead & Digital Communications - AI Valley

Oct 2025 - Present

Hackathon infrastructure, partnerships, and developer community

San Francisco, CA

- 5K+ hackathon users served by judging/submission software I built for scoring, submissions, reviewer workflows, and operations across AI Valley events.
- 19 AI events helped organize with OpenAI, Google, Anthropic, Netflix, AWS, Vercel, 3,700+ recent attendees, and one 1,200+ signup event.
- 2 sponsorships secured directly, 6 sponsor leads generated, and TechEx North America speaker on building AI coding agents.

Hackathon competitor - winner, host, and speaker across AI builder events

- Won YC Hack the Stackathon, Alif x Replit World's Greatest Tournament, AGI House AI4Healthcare, cua.ai Computer-Use Agents, Replicate Hackathon, Dumb Hackathon, and Single Shot Hackathon.
- Placed at AGI House x Omi and Hack for Social Impact.

PROJECTS & AWARDS

Metric - recruiting intelligence layer for technical builders

2026 - Present

- 2 of 3 hackathon winners predicted for a tested event using rankings from competition history, GitHub activity, talks, gated communities, and public technical signals.

SF Graffiti Search - semantic search over city-inspector image data

2025 - Present

- 87,790 San Francisco graffiti photos indexed using Gemini Flash descriptions and vector search for content, style, location, and visualization queries.

USACO Platinum - top 1% internationally in competitive programming

Dec 2024 - Present

Exonic AI Tournament - #1 globally for DNA sequences enhancing liver cancer-killing cells

Nov 2025

AI Ambassador & Instructor - Inspirit AI

Dec 2024 - Present

AI education and curriculum

Remote

- Taught AI fundamentals to 60 students, won 1st Place for Best Presentation, and reached 2,500+ learners through educational initiatives.

OPEN SOURCE & TECHNICAL SKILLS

Open Source: Google Guava, Google Mug, Google Dotprompt, Superset - tests, thread-leak fixes, reproducible builds, docs, Python/Bazel workflows, telemetry, billing, infrastructure fixes.

Languages: Python, TypeScript, Java, C/C++, Go, SQL, HTML/CSS, Bash

Full-Stack / Infra: React, Next.js, Node.js, FastAPI, PostgreSQL, MongoDB, Redis, Docker, AWS, CI/CD, REST APIs, WebSockets, vector databases, analytics pipelines

Security / AI: Web security, API security, authorization testing, CVSS triage, bug bounty reporting, OSINT enrichment, LLM agents, RAG, ranking systems, bioinformatics

Athletics: 225 bench, 355 squat, 405 deadlift, 6-minute mile, sub-20 5K; lifting: @nk.liftss
